

Nature Cycle

UX CASE STUDY

MINA NASR ESFAHANI
INM300

Project Overview

The aim is to create a user-friendly mobile app for NaturCycle, a pioneering cosmetic brand centered on sustainable beauty from recycled human waste. This app links eco-minded consumers to eco-friendly skincare, education, and a recycling program. Its focus is on sustainability, innovation, and environmental responsibility to build a robust brand presence.

PROBLEM

Finding sustainable skincare products can be difficult for eco-conscious consumers due to limited information on environmental impacts and scarce options. The cosmetics industry's waste exacerbates environmental issues. NaturCycle combats these challenges by providing a platform offering sustainable skincare and educating users on the positive impact of recycling human waste in cosmetics.

GOALS

Finding sustainable skincare products can be difficult for eco-conscious consumers due to limited information on environmental impacts and scarce options. The cosmetics industry's waste exacerbates environmental issues. NaturCycle combats these challenges by providing a platform offering sustainable skincare and educating users on the positive impact of recycling human waste in cosmetics.

MY ROLE

- Explored sustainable beauty app development, crafting wireframes, personas, and user flow charts.
- Contributed to UX/UI design, content curation, and community engagement strategies for the NaturCycle app.

PROJECT VISION

The NaturCycle project vision is to transform the beauty industry with an intuitive mobile app promoting sustainable practices. By connecting eco-conscious users to eco-friendly skincare derived from recycled human waste, NaturCycle empowers informed decisions and active participation in waste reduction, fostering a greener beauty approach.

GOALS AND IDEAS

- Create an engaging app for NaturCycle promoting sustainable beauty practices.
- Offer easy access to product catalog, personalized tools, and AR try-on.
- Educate users on human waste recycling benefits.
- Simplify waste submission, implement a loyalty program, and build a sustainability-focused community.
- Empower users in making eco-conscious skincare choices and reducing waste.

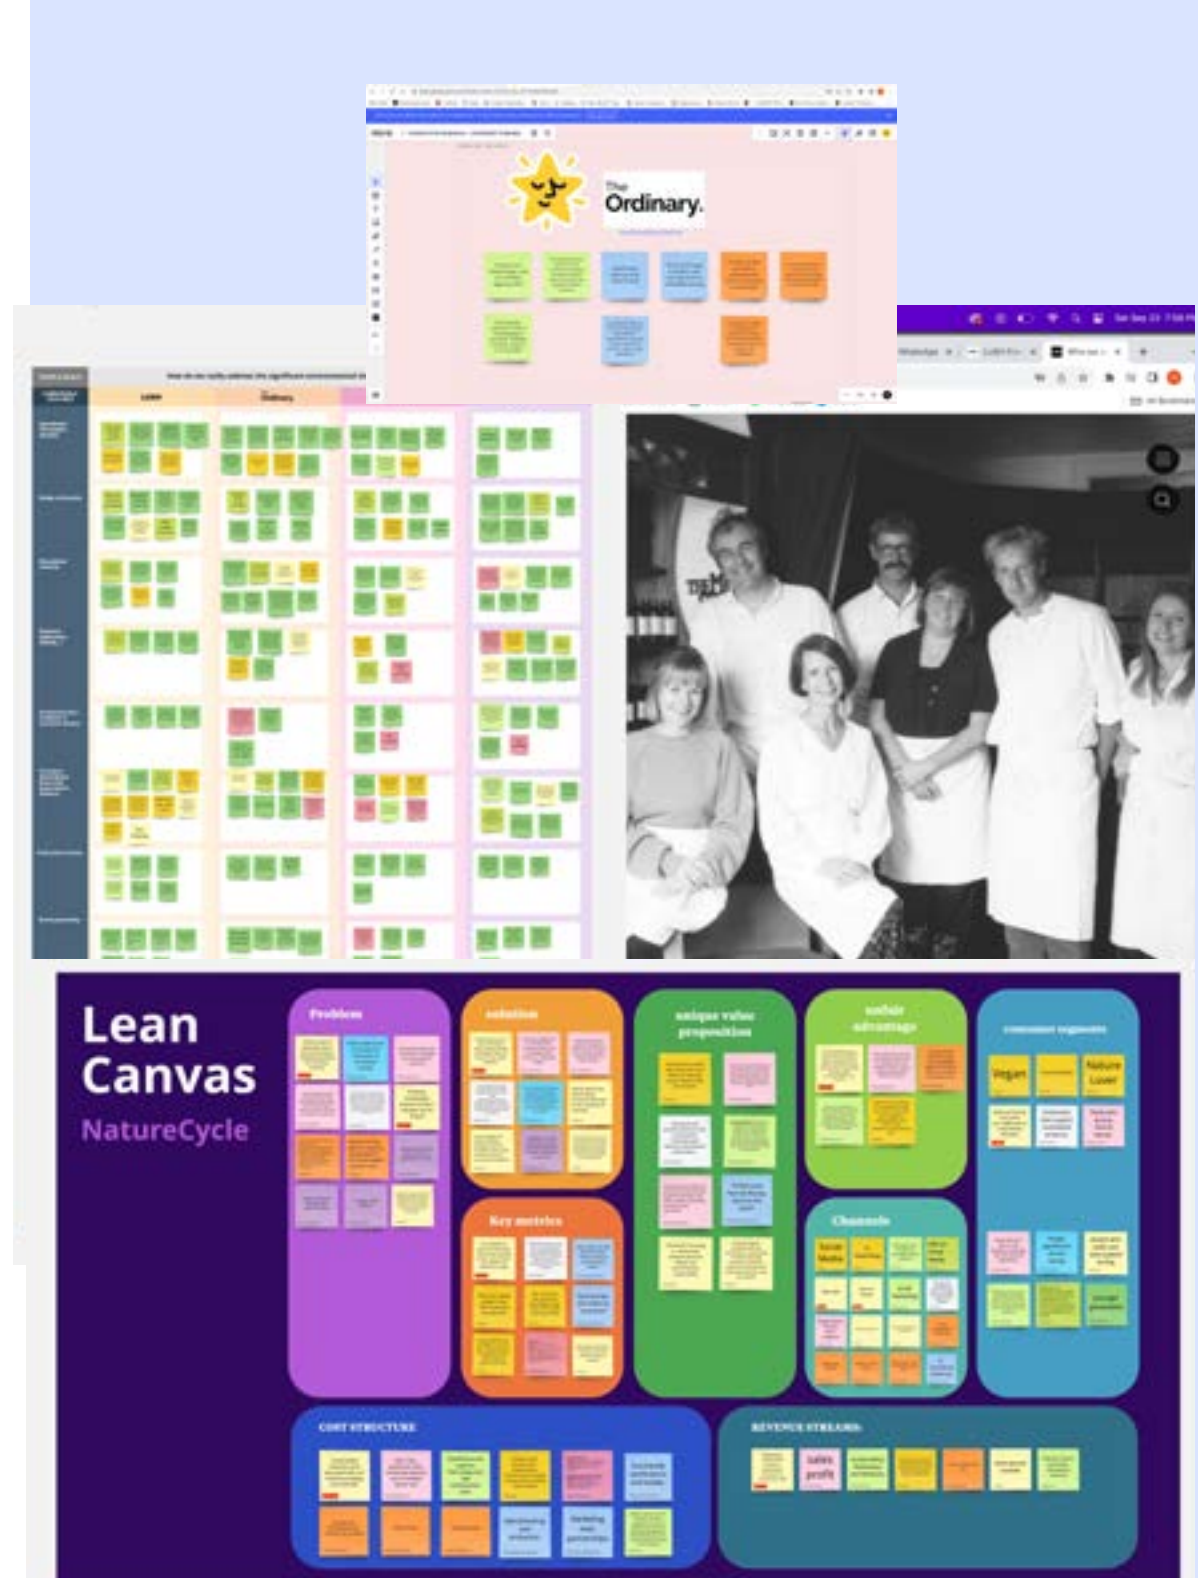

MEASUREMENT OF SUCCESS

- Measure success through KPIs: app downloads, active users, and retention rates.
- Track volume of waste materials collected and recycled via the app.
- Assess impact through user feedback, satisfaction surveys, and community engagement.
- Success hinges on promoting sustainable beauty practices and nurturing environmental responsibility among users..

UNCERTAINTIES

- KPIs: Track app downloads, active users, and retention rates for user engagement.
- Measure waste materials collected and recycled through the app.
- Assess impact via user feedback, satisfaction surveys, and community interaction.
- Success determined by promoting sustainable beauty and nurturing environmental responsibility among users.

RESEARCH

LEAN CANVAS

KEY METRICS

- **User engagement**
- **Sales conversion rate**
- **offer Waste Submission**
- **Sales Funnel**
- **Partnerships and offers to costumers**

COST STRUCTURE

- **Distribution Costs**
- **Regulatory and Compliance Costs**
- **Eco-Certifications and Environmental Studies**
- **Advertising costs**

SOLUTION

- **Social Features:** Include forums, chat, and user-generated content to connect like-minded sustainability enthusiasts
- **NatureCycle App:** Informs about positive impacts of recycling human waste.
- **Customer Incentives:** Informs and rewards customers for recycling efforts, promoting participation.

PROBLEM

- **Lack of Awareness:** Limited Awareness of Cosmetic Industry's Environmental Impact
- **Recycling Human Waste:** Need for Clear Recycling Program to Ensure Safety and Cleanliness
- **Market Overlap:** Many similar brands lack distinctiveness
- **Regulatory Compliance:** Using human waste in cosmetics
- **Material Challenges**
- **Recycling Human Waste:** Time and Energy Investment

UNFAIR ADVANTAGE

- **Unique Selling Point**
- **Comprehensive Customer Experience**
- **Industry Authority**

CONSUMER SEGMENTS

- **Nature Lover**
- **Natural Beauty Enthusiasts**
- **Environmentally Conscious Individuals**
- **Innovative Product Enthusiasts**

UNIQUE VALUE PROPOSITION

- **Environmental Impact Information**
- **Environmental Awareness**
- **Personalization**
- **Exclusive Limited Products**

CHANNELS

- **TV and Social Media Advertising**
- **Fashion houses / make up academies / Beauty salons** Exclusive Limited Products
- **E-commerce platforms**
- **Promote at eco-friendly and naturalistic events and fairs**

RESEARCH

Step 1: Walk and talk

I've developed this set of questions divided into categories such as **Background**, **Goals** and **Aspirations**, **Challenges** and **Frustrations**, **Motivations**, **Behavior** and **Preferences**, **Values** and **Beliefs**, **Future Aspirations**, and **Products** and **Services Feedback** and **Improvement**. These questions are designed to extract valuable insights from a 35-year-old mother of two, offering you a deep understanding of her perspective

Step 2: Expand the conversation by asking more questions

- Can you share a recent experience that particularly motivated or excited you about beauty products?
- Do you currently use any specific products or services related to natural beauty? If so, can you share your experience with me?
- If you could change or improve something about your experience with skincare products, what would it be?

Balancing finance and self-care

Kelly Anderson

BIO

Meet Kelly, a 35-year-old senior accountant, skilled in balancing family and career while prioritizing self-care through skincare. She's motivated by the joy of feeling pampered and believes it boosts her confidence. Yet, she grapples with skincare product quality, costs, and sensitivities. Kelly seeks harmony between her numbers-driven career and her passion for beauty and well-being.

FRUSTATIONS

- Fear of ineffective skincare products
- Concerns about skin sensitivities or allergies
- Anxiety about not achieving skincare goals
- Worries about product quality and cost
- Struggles to balance life's demands with self-care
- Struggling with peer pressure and skin sensitivities, making self-care difficult.

“

Embracing balance, nurturing strength, and pursuing dreams – the essence of my extraordinary journey. ”

Type of User: **Qualitative**
Name: **Kelly Anderson**
Date: **October 2023**

Validated

- Find a skincare routine and products that align with self-care goals
- Handle peer pressure about beauty standards like a boss
- Balance family and career effectively

THINK

- Effectively address skin sensitivities or allergies
- Lots of skincare stuff out there, all claiming to be special
- Consider product quality and cost
- Make choices for sensitive skin or allergies

FEEL

HEAR

- Family-career balancing acts, the good and the tough
- Coming across the latest skincare trends and buzz online
- Latest tips for looking youthful and staying relaxed from her social circle
- tricks for juggling family, work, and self-care
- suggesting skincare products that worked for them

DO

- Spend more time on self-care, like skincare routines
- Experimenting with different products and routines
- Using skincare stuff, but not totally thrilled

- Balancing family, career, and self-care can be tough
- Shares experiences with skin sensitivities and allergies affecting her choices
- Talks about self-care as a way to feel more balanced

SAY

SEE

- online tutorials and reading stuff from skincare experts
- Scanning reviews to see what works for others
- Following influencers for tips and tricks
- Looking for solutions to regular skincare stuff they're dealing with
- Family and work stuff keep her pretty busy

GAINS

- Fear of not finding effective skincare products
- Frustrated with skincare costs and beauty standards pressure
- Anxious about skin sensitivities or allergies impacting her choices
- Not achieving skincare goals

PAINS

- Needs affordable skincare within budget
- Wants effective skincare for well-being
- Hopes to defy beauty standards and boost confidence
- Achieving pampering, confidence, stress reduction, and

People who like scientific products personality:

People who are inclined towards scientific products often have personality traits and preferences that align with their interest in science and technology. Here are some common personality traits and characteristics often associated with individuals who appreciate scientific products:

1. **Analytical:** People interested in scientific products tend to have a knack for analysis. They enjoy breaking down complex problems into manageable parts and using data and evidence to draw conclusions.
2. **Curious:** Science enthusiasts are often curious individuals who ask questions, seek answers, and have a desire to understand how things work. They enjoy exploring the unknown and discovering new phenomena.
3. **Logical:** Scientific-minded people tend to think logically and rationally. They value reason and evidence-based decision-making.
4. **Detail-Oriented:** Precision and attention to detail are essential when working with scientific instruments and products. People who appreciate these items often possess strong attention to detail.
5. **Open-Minded:** Scientists and science enthusiasts are generally open to new ideas and willing to adjust their beliefs based on empirical evidence. They are open to challenging their preconceptions.
6. **Problem-Solvers:** Individuals who like scientific products are often good problem solvers. They enjoy tackling complex issues and finding innovative solutions.

PERSONA

GOALS

- Showcase her passionate commitment to eco-friendly cosmetics and sustainability
- Transition to eco-friendly cosmetics
- Stay informed on sustainable beauty trends
- Achieve satisfaction and align with environmental values
- Acknowledges challenges: maintenance, formula changes, research
- Strong commitment to eco-friendly beauty

FRUSTATIONS

- Eco-friendly price premiums while valuing cost-effectiveness
- Curiosity drives research, but eco-friendly product search overwhelms efficiency-focused Ava
- Constant changes feel disruptive, require extra effort to adapt
- Changing product formulas
- Craving consistency and dependability in her daily life

“In Ava's world, sustainability isn't just a choice; it's a way of life – tech-savvy, heart-driven, and always innovating.”

Driving sustainability through innovation

Ava Wettrick

BIO

Introducing Ava, a 32-year-old data engineer dedicated to eco-friendly cosmetics, innovation, and sustainability. Despite challenges like changing product formulations, research, and costs, her unwavering motivation is rooted in sustainable beauty, self-care, and environmental advocacy. Ava is a pioneer in conscientious beauty.

EMPATHY MAP

THINK

- Stay updated on sustainable beauty trends and practices
- Choosing eco-friendly brands and products
- Increase sense of alignment with her values of environmental advocacy

FEEL

- Responsible and motivated to show the way
- Concerned about the environmental impact of conventional cosmetics
- Annoyed by the constant changes in product formulas

- Discussing the impact of sustainable beauty on their daily routines and its alignment with environmental values
- Recommendations for specific eco-friendly cosmetic brands and products
- Challenges of finding the right sustainable beauty products
- Challenges they face in making the transition to eco-friendly cosmetics

HEAR

DO

- Observe her actively seeking information on sustainable beauty practices and products
- Look to transition more towards sustainable beauty products
- Use a combination of traditional and eco-friendly cosmetics

SAY

- Express her desire to make more environmentally conscious choices
- Seek advice from others who share her values
- Sharing excitement about discovering eco-friendly products

- Observe the availability of both traditional and eco-friendly cosmetics options
- Follow influencers and experts in the eco-friendly cosmetics industry
- Watch online tutorials and reading articles or blogs
- Notice the impact of beauty choices on daily routine and surroundings

SEE

A/B TESTING

Tester A

- Requesting to potentially add a button
- I am into the distribution, but it needs a few more elements
- It appears easy to navigate

Tester B

- Good layout.
- I think the text above would be useful once you finalize it.
- I love this one.
- it looks clearer than option A.
- I like this one. Maybe we need to add a search box and footer to the final version.

Samia Zahide (A) - Neat, maybe add some buttons?

Koby Haggier - (B) -> Good layout

Santiago R - (A) - I like the distribution, but I would add some elements from b i)

Nadine - B - I think the text above would be useful once you do the final

Julie - A - it looks easy to navigate

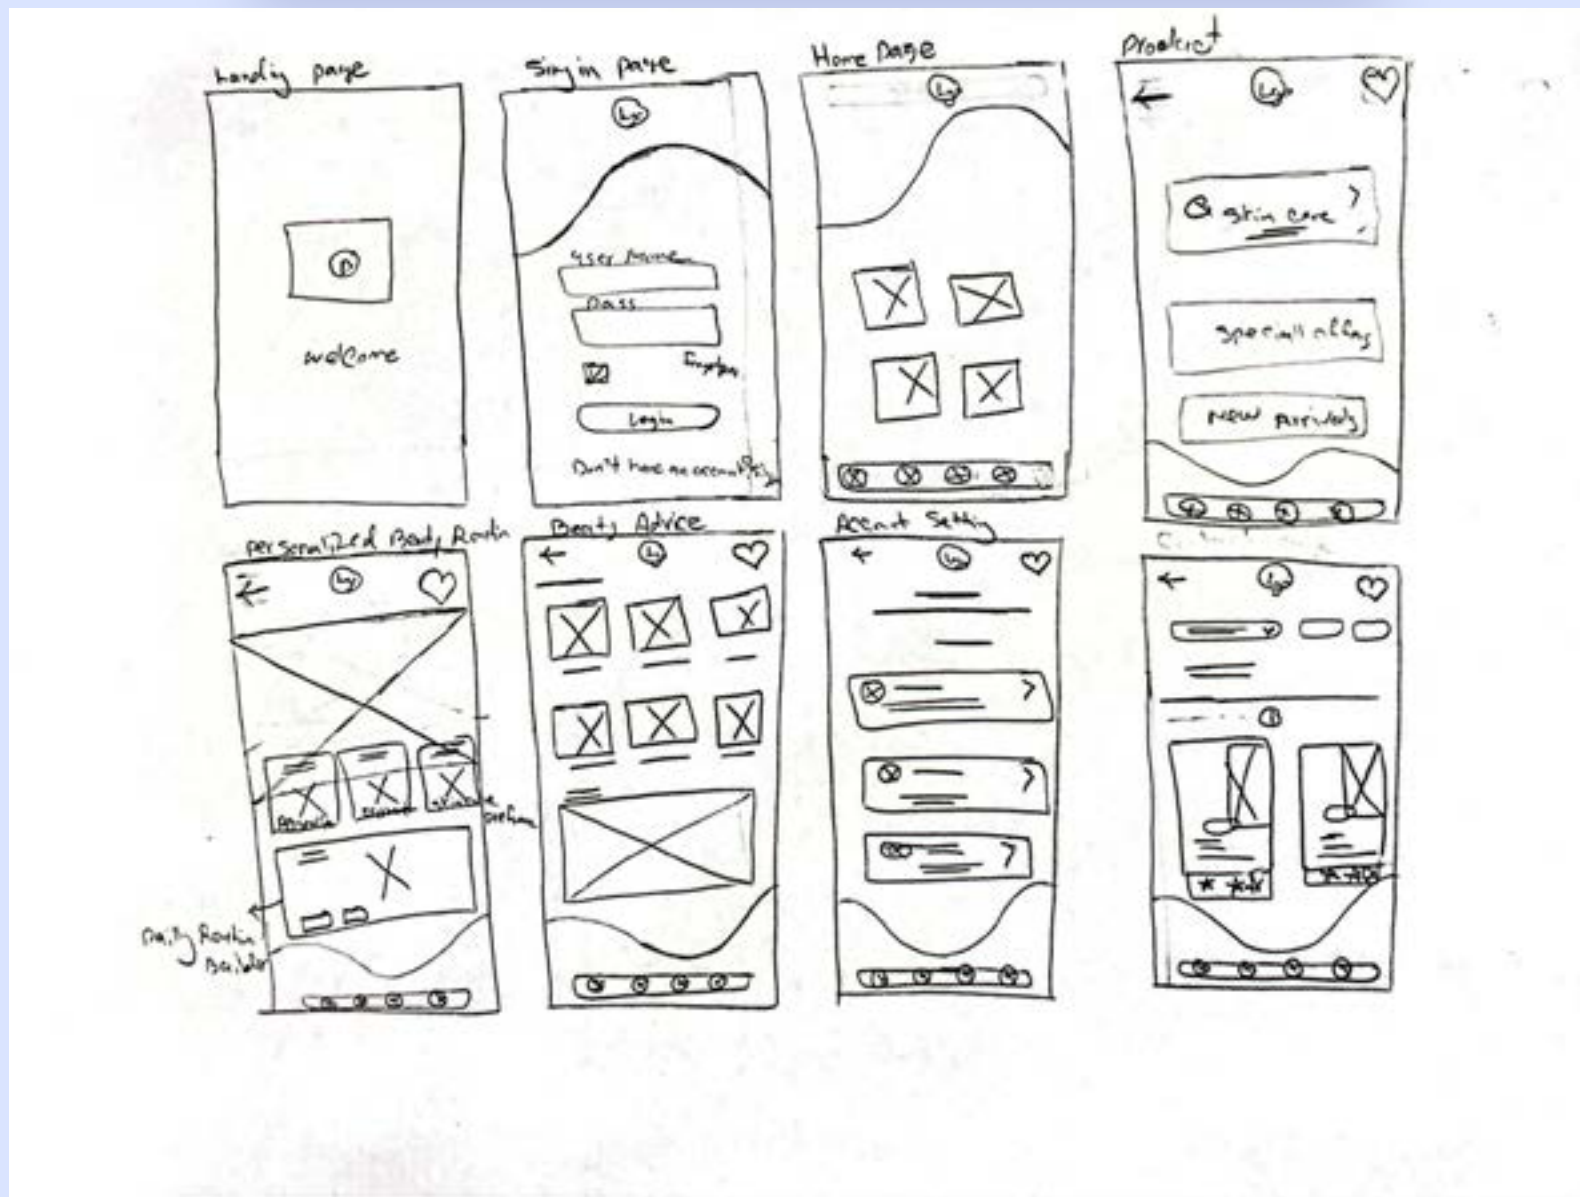

Kaden B - Love this one.

Yanni (B) looks more clear than A's

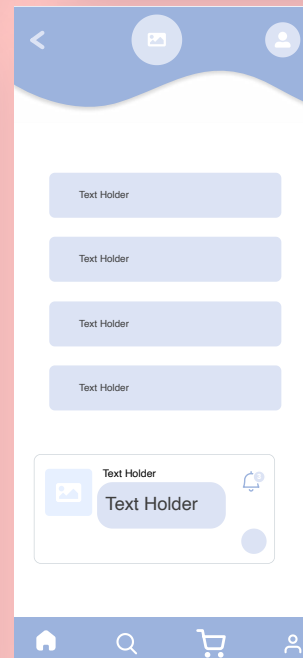

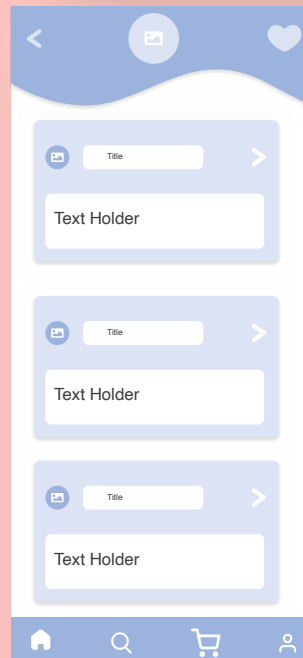

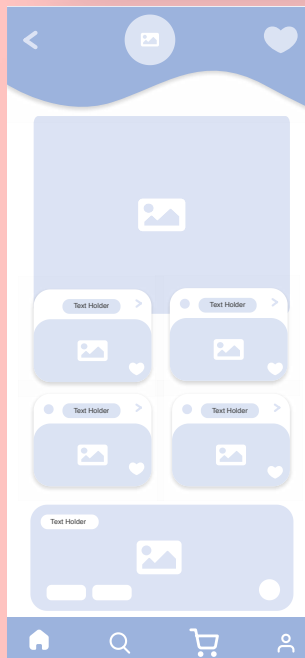

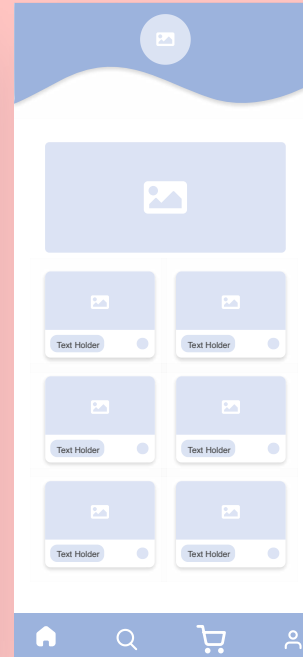

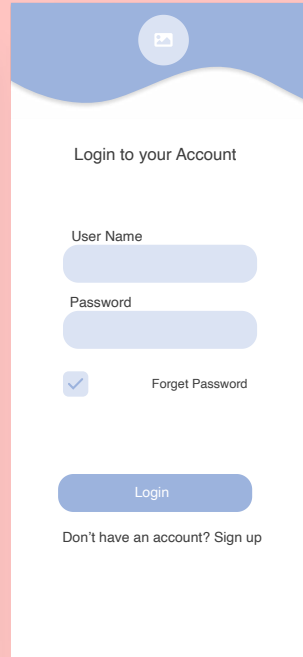

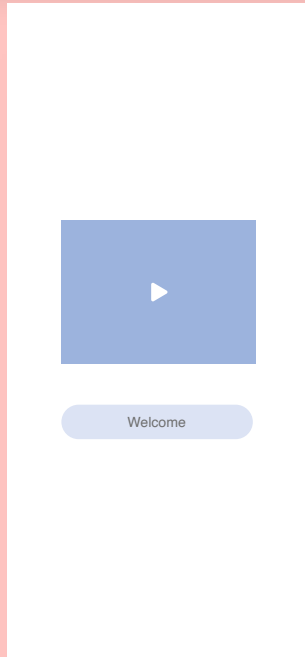

Sara (B) I like this one.

REFLECTIONS

Throughout this project, I've led key aspects like UX/UI design, content creation, and community engagement for NaturCycle's app. Crafting its vision, I contributed to sustainable beauty promotion and user-centricity. My work on wireframes and user flow charts translated concepts into practical design. This experience enriched my skills in app development, sustainability advocacy, and collaborative teamwork, aligning user needs with environmental values.
